

**Let's heal the world and join one of the most powerful networks!**  
**Grab it before others do respectively water it and let it grow!**  
**Ask in my Facebook- or LinkedIn-Account for the joinment to my exclusive network!**

ATTENTION: I just have started this network in April 2020!  
 The start began with a legendary superheavyweight  
 boxing world champion

**"WE ARE THE DRIVING FORCE!"**

So please feel a little honored to be "under the same  
 sheets" with e.g. Wladimir Klitschko and Russell Crowe! ;O)

**(Uwe Litzkendorf)**

**For Ukraine, USA and Germany**

Dr. Wladimir  
 Klitschko

With Muhammad Ali the most famous boxing-  
 worldchampion of all time! „We are the driving force!“  
 A digitization- and change-preacher par excellence...

**For Australia**

- Central Distribution Head, Lahore

### **For China**

- Doctoral-student at „School of Economics and Management“, Peking

### **For Russia**

- Administration-specialist

### **For Belarus**

- Software-jobplacement-agency

### **For Turkey**

- Professional female soccer of a successful 1.ligue-club

### **For Guinea-Bissau**

- Diplomat

### **For Togo**

- experienced NGO-manager of the missio-foundation (for Nigeria&Kongo, close friend)

### **For Southafrica**

- Musician/Band

### **For New Zealand**

- Data-Research-Enthusiast

**New famous and important names are permanently added!**  
**100% NO FAKE!!!**

In due course, I will ask my effective "networkers" whether I can mention and use their name - such as in the case of **Russell Crowe** - in this context for further invitations, chats or similar occasions. Russell sets a good example and, after a short brief explanation, agreed without hesitation! The best thing to do is – please - to write "**Mention okay!**" In the invitation. Then the rest of the annoying correspondence is omitted for both sides!

Between those who give me this permission, if there is interest, there will be personal meetings and if necessary it comes to synergetic cooperation. I will organize exciting events where those involved can get to know each other without obligation and have the opportunity, if possible and necessary, to merge into meaningful and helpful projects and cooperations...

**Now some informations about me (Uwe Litzkendorf), so that you know who you are dealing with and what I'm up to:**

Among IT-insiders I am considered as a wellknown bestseller-author on the issue GFA-BASIC on the ATARI ST and the Commodore AMIGA.

The main topics of my well reputed books were the transfer of general, comprehensive know-how in "software development" and the operating system technology of the "ATARI ST" and the "Commodore-AMIGA" PCs. From 1985 until well into the 1990s, my books were all bestsellers and undisputed market leaders.

[ebook.pixas.de](http://ebook.pixas.de)

With seven different works, I am well known as a BASIC "guru" in the German and French speaking European countries.

Besides working as managing director of the multimedia and web agency "CMD - ComputerMediaDesign GbR", I was also a co-developer of the free multimedia programming language **PIXXOS**©.

All 200 demos (e.g. and much more...)

and all customer projects were realized by myself personally.

I am currently programming the browser-based multimedia BASIC "**QS!X(c)**" as an open source project (free for everyone worldwide like the well-known operating system LINUX)

<p>GFA-Basic 14 Books 7.000 Pages</p>	<p>PIXXOS 3 Developers 420 Commands</p>
<p><b>THE SUPPORT VS</b></p>	<p><b>THE SUPPORT VS</b></p>
<p>Europewide 130.000 Buyers 200.000 Readers</p>	<p>International 220.000 Downloads</p>
<p><b>THE CONGRATULATIONS</b></p>	<p><b>THE CONGRATULATIONS</b></p>

with co-developers in Bengaluru (formerly "Bangalore", India) . It will be a very efficient HTML5-BASIC based on canvas, which - procedurally and NOT object-oriented - worldwide on all standard internet browsers, both stationary (PC, TV) and mobile (smartphone, tablets and later also on smartwatches) will run very quickly as a fully integrated app platform.

Modular, recursive, quantum PC interface, FOREX trading functions, simple online learning system for teachers and students, CBT, SQL<>CSS capable, 3D, animation, video, telephony, video conferencing capable, video concerts with Conductor and with expandable cloud permalink libraries, an own social

media network, hundreds of free demos for learning, trying out, adapting and copying as well as with many free online manuals and much more...

I was once a confidante of the – now regrettably deceased - GFA-BASIC father Frank Ostrowski and I am looking forward to - so to say - taking his immense legacy with "QS!X" in a good mood and grateful! GFA-BASIC has made invaluable advances in software development. Many BASICs in the world (also in the USA) have taken it as a model due to its groundbreaking qualities.

All my books on GFA-BASIC and the ATARI ST operating system TOS / GEM) with a total volume of more than 4,000 pages and approx. 130,000 copies sold in German, English, Dutch and French, they were digitized interactively as an online PDF and published free of charge throughout Europe at [ebook.pixas.de](http://ebook.pixas.de)! We can definitely be excited! I am very glad about it!

### **QS!X(c) so to say follows GFA-BASIC worthy - multimedia and online...**

I have created a funding cooperative respectively a donation initiative to adequately finance my developments (open source with 10 to 15 Indian developers) as start-up initialization with 50,000 USDollar (or 6 x \$8,500) and thus secure them permanently for my developers! After the first beta version of „QS!X(c)“ (with 10 developers approx. 6 months), the installed open-source-team will then act independently on its own! The amortization and further liquidity then takes place via the distribution of manuals, apps etc. The financing of the further other projects will afterwards be advertised with a then finished „QS!X“-version subsequently and separately.

See a brief venture-info about the „QS!X-expedition“ to the amazing wonderland of pretty online-softwares!

[litzkendorf.net/qsix\\_expedition\\_e.pdf](http://litzkendorf.net/qsix_expedition_e.pdf)

or German

[litzkendorf.net/qsix\\_expedition\\_d.pdf](http://litzkendorf.net/qsix_expedition_d.pdf)

Under „[litzkendorf.net/index\\_e.html](http://litzkendorf.net/index_e.html)“ (Attention: click the spam filter first) you can also get detailed information about my free OpenSource responsive technology **MediaLay(c)** and the planned W3P-web-productionsystem **YouVee(c)** without obligation.

If you want to support my charitable activities, OpenSource-software and farreaching potentials with a donation, you will find here my international accounts for the corresponding most convenient currencies:

Since we are not a non-profit organization, we do not issue a donation receipt. The transfer slip is your receipt!

**Up from a donation of 50 Euro** (or 60 USD) you will avail a free "QS!X"-version with a complete developers-manual via online-ZIP gratis as soon as the program is finished! And **up from a donation of 100 Euro** you will get a real printed handbook via physical mail!

If you want to participate, you should contact us directly: „[litzkendorf.net@gmx.net](mailto:litzkendorf.net@gmx.net)“. In addition to our projects, we are planning to set up publishing houses in Cologne, Houston and Bengaluru, which - similar to LINUX - deal with all publishing activities such as the "QS!X"- and the "YouVee"-developments, open source codes, manuals, organization, modules, collaboration, synergetic, franchising, global charity or oneworld campaigns and similar exciting things!

**A share certificate for one per thousand (1/1000) currently costs EUR 1,000 and work performance is currently calculated at an average of EUR 33.00 gross per performance hour - depending on the qualification.**

For further and detailed information about me and my projects, please simply send an informal email to [litzkendorf.net@gmx.net](mailto:litzkendorf.net@gmx.net) or - as indicated at the beginning: just join my LinkedIn- or FaceBook-network!

**Classes for the masses** - as you can see above, you are really in good company at the **Litzkendorf.Net...** ([Litzkendorf.net/index\\_e2.html](http://Litzkendorf.net/index_e2.html))

**Heartly greetings**  
**Uwe Litzkendorf**
